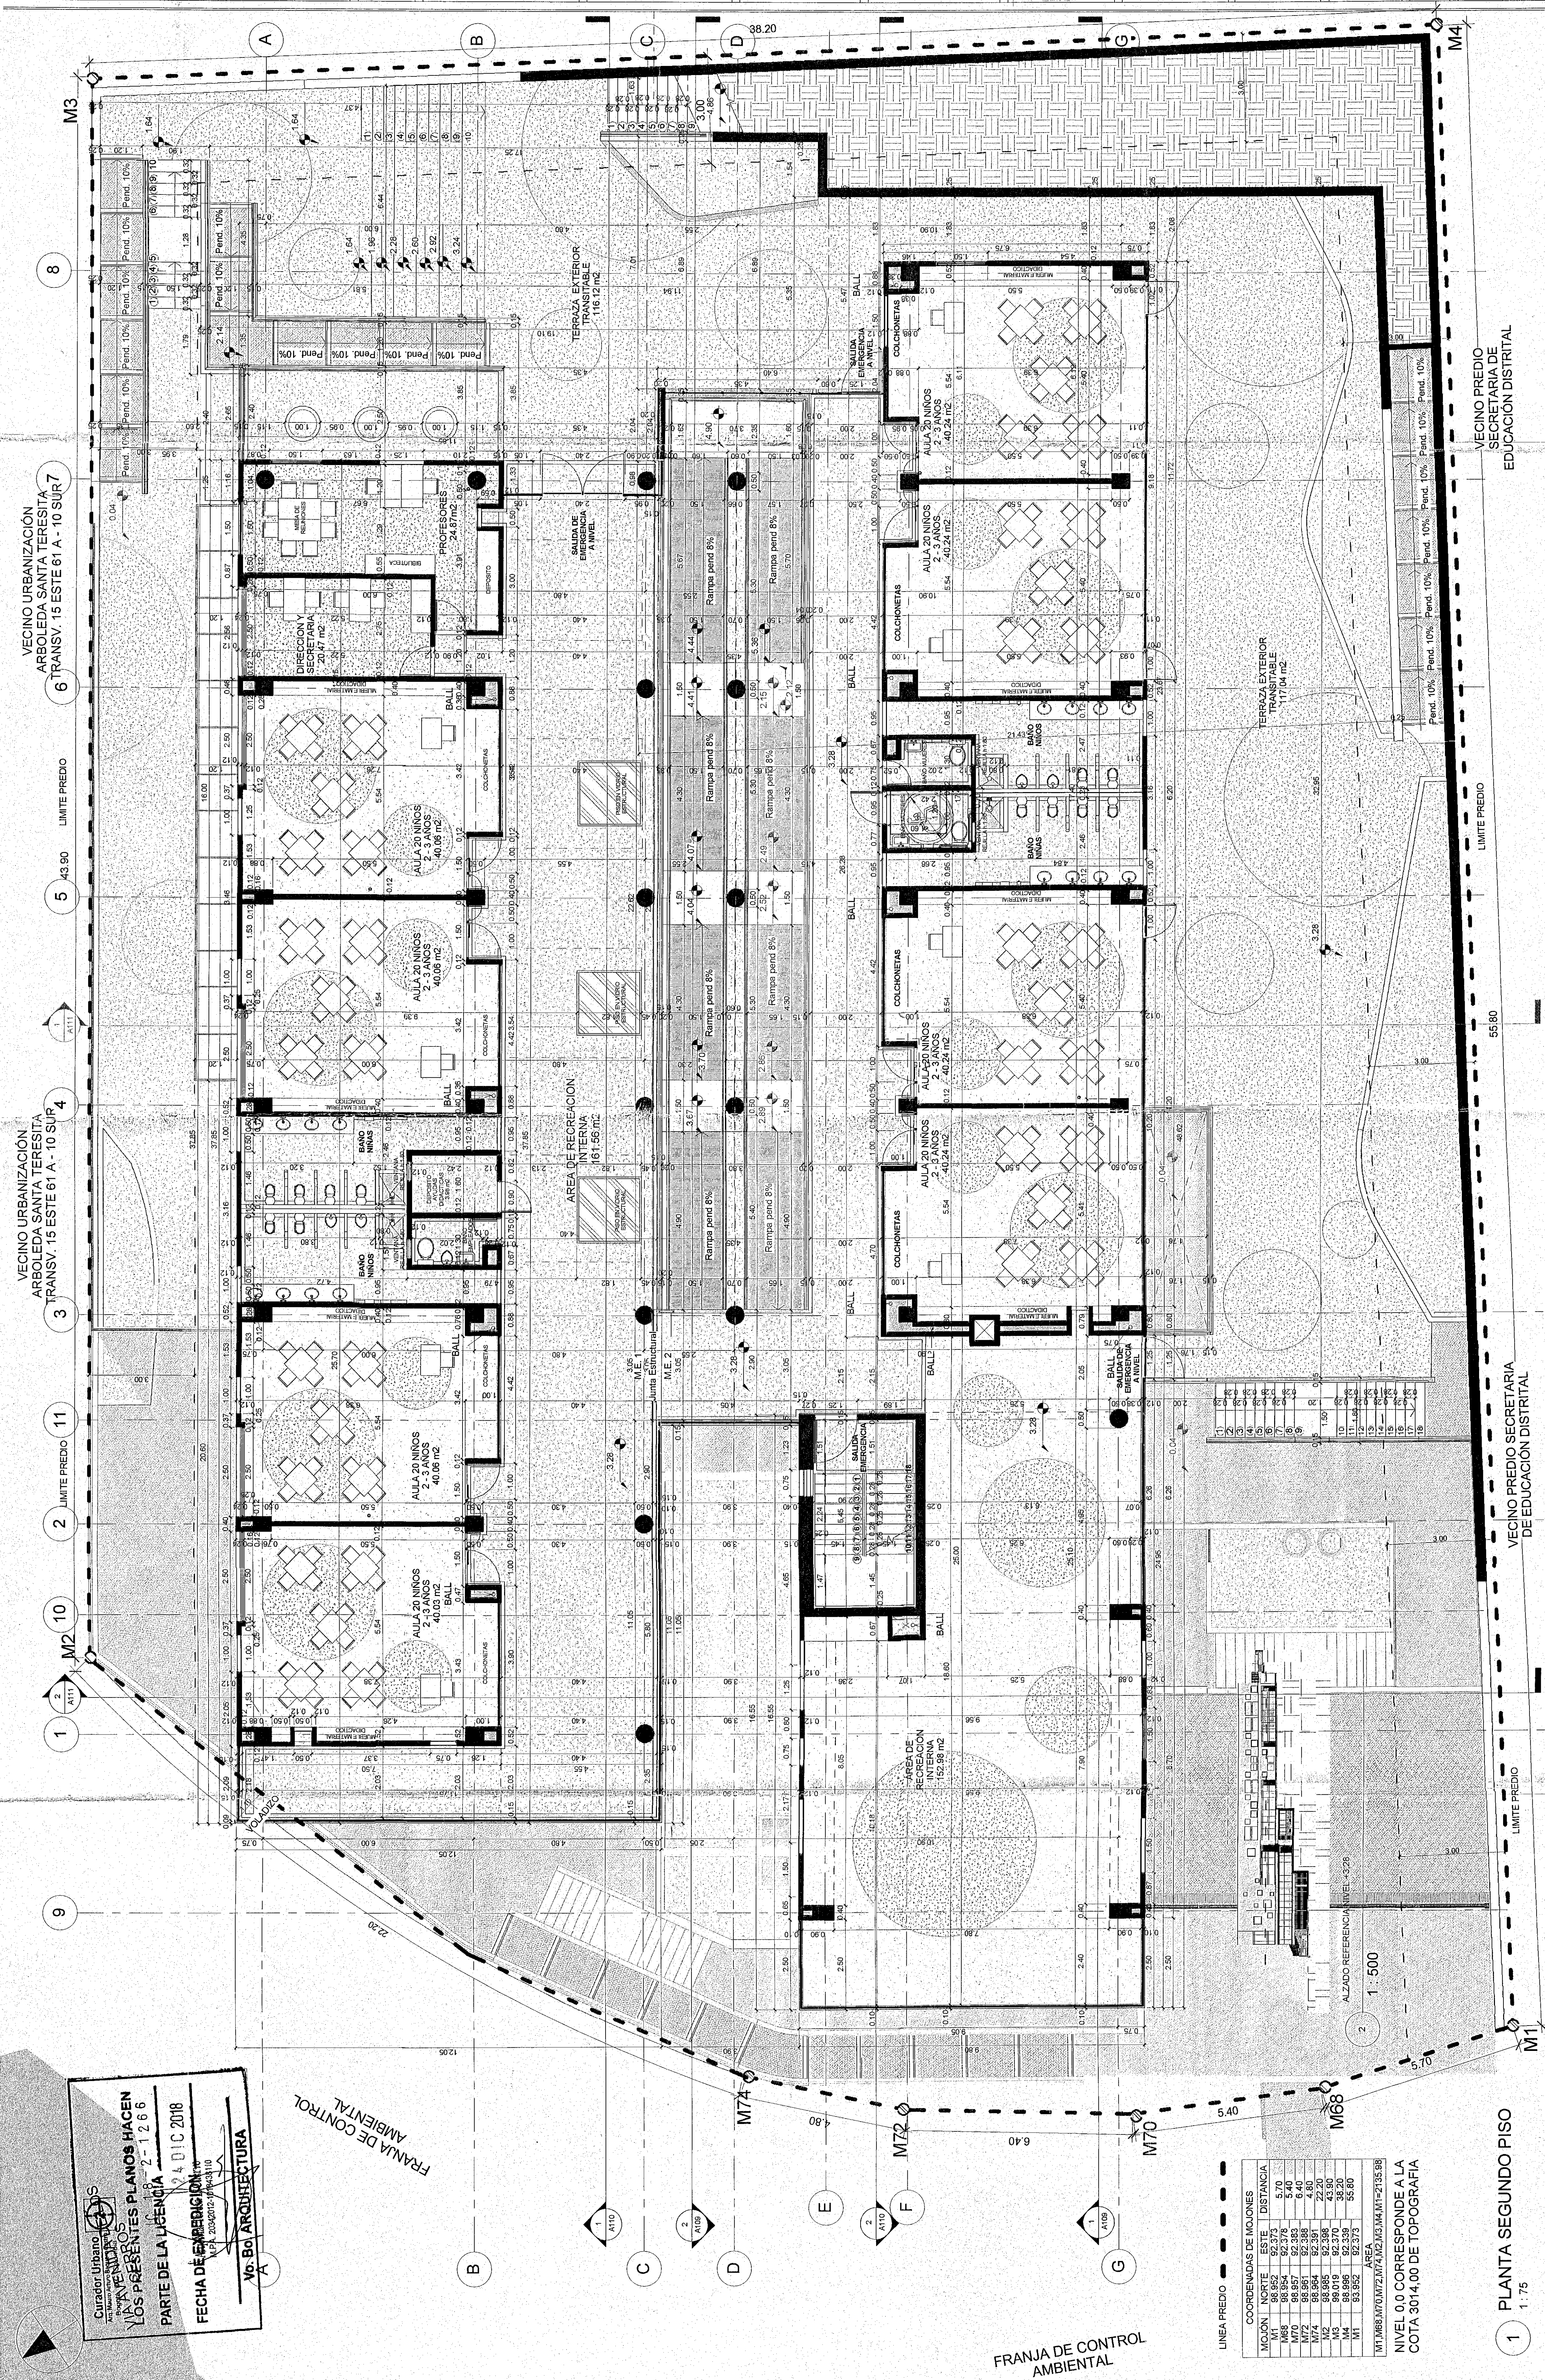

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a screen displaying a target. The target is a small circle. The subject's hand is positioned at the starting point, and the distance between the hand and the target is the reach distance. The subject is instructed to move the hand to the target and then return it to the starting point. The distance between the starting point and the target is the reach distance. The distance between the starting point and the target is the reach distance.
